Our Story

ROOT Space Architects & Engineers is a premier, full-service firm dedicated to delivering global design and engineering excellence. With over 8 years of active practice and a legacy of expertise dating back to 2018, our team provides a seamless integration of creative vision and technical precision.

Core Values & Technical Strength

We believe that every complex idea should be transformed into a practical, buildable space. Our work is guided by:

Technical Accuracy: Utilizing advanced tools and modern construction methods to ensure long-term performance and efficiency.

Safety & Compliance: Every design undergoes rigorous safety checks and adheres strictly to all required codes and regulations.

Strategic Cost Control: We prioritize clear planning to maintain the highest quality standards while staying within budget.

Sustainability: We are committed to the future of urban living through integrated solar solutions and green landscaping.

Our Services

Experience since 2008 with a proven unified single-team model that ensures consistency and strict cost control.

Architectural Design & Planning

- ✓ Master planning for large developments
- ✓ 3D visualization and animation
- ✓ Physical model making
- ✓ Detailed architectural drawings

Interiors & Landscaping

- ✓ Interior design and turnkey execution
- ✓ Rooftop gardening systems
- ✓ Sustainable green landscaping

Technical Engineering

- ✓ Structural, electrical, and plumbing
- ✓ Mechanical and HVAC design
- ✓ Comprehensive fire safety planning

Civil & Foundation

- ✓ Matt foundation and piling systems
- ✓ Multistoried basement construction
- ✓ Excavation and shore support

Materials & Logistics

- ✓ High-quality local material sourcing
- ✓ Imported premium finishes sourcing

Strategic Consultancy

- ✓ Residential development planning
- ✓ Commercial complex feasibility
- ✓ Urban planning consultancy

Our Mission: Solving the Coordination Gap

In modern construction, projects often suffer from delays, errors, and escalating costs due to the fragmentation of design, engineering, and execution. At ROOT Space, we eliminate these risks through our unique single-team model. By unifying architecture and engineering from inception to completion, we ensure design consistency, reduce rework, and maintain stable timelines and budgets.
